Sorento

The Mainstream

The new Sorento

You shape worldviews with your unwavering conviction and adventurous spirit,
You are the mainstream.

Volcanic Sand Brown (BN4) / Specifications may vary according to the trim, engine, and options that are selected.

Exterior

Building on the heritage and powerful presence of Kia's flagship SUV, the headlamps, radiator grille, rear lamps, rear bumper, and wheels have been remodeled to reinforce the vehicle's bold look.

Interstellar Gray (AGT) / Specifications may vary according to the trim, engine, and options that are selected.

Sorento Gravity

With an exclusively designed radiator grille and black alloy wheels, voluminous Gravity-only leather seats, and glossy black or dark gunmetal finishes on key exterior features, Sorento Gravity projects a powerful, commanding look.

Exclusive Gravity radiator grille

Exclusive Gravity black alloy wheels

Sorento Hybrid Gravity _ Volcanic Sand Brown (BN4)

Sorento Gasoline Gravity _ Aurora Black Pearl (ABP)

Specifications may vary according to the trim, engine, and options that are selected.

Olive Brown interior / Specifications may vary according to the trim, engine, and options that are selected.

Interior

Ambient light and elegant patterns on seat upholstery create a magnificent ambiance that complements the simple, uncluttered interior that centers around the curved display.

Panoramic curved display

A curved display integrates a 12.3" cluster and 12.3" navigation for greater convenience and sophistication. A unified design improves the visual integration of the cluster and navigation and reinforces the user-friendliness of the screen layout.

Suede upholstery

The use of black suede on the headliner, sun visors, and A/B pillars adds to the refinement of the interior.

Ambient light

Premium insert film and three-dimensional lighting patterns create dramatic ambient light effects in diverse colors.

1st-row Relaxation Comfort seats

Driver and passenger Relaxation Comfort seats allow occupants to relax in a weightless position.

Space

An Ergo Motion Driver's Seat and smart position control optimize seating comfort by taking into consideration the driver's body shape and driving patterns. The cabin offers ample space to work, relax, watch videos, or listen to music in total comfort.

Ergo Motion Driver's Seat

Adjustable air pockets optimize seating comfort and include a stretching function. Lateral support is automatically optimized to match the vehicle speed and driving mode that is selected.

Wing-out headrests

Wing-out headrests in the 2nd row of the 6-seater model not only enhance the interior's premium feel but also provide support for the heads of 2nd-row passengers for unwavering comfort.

Olive Brown interior / Specifications may vary according to the trim, engine, and options that are selected.

Volcanic Sand Brown (BN4)

Olive Brown interior

Interstellar Gray (AGT)

Interstellar Gray (AGT)

Lead the Moment

Convenience

Tailored to both individual and family lifestyles, advanced convenience features make Sorento's carefree lifestyle a reality for driving around town or for pursuing interests such as traveling, camping, or surfing.

Digital rear view mirror
Camera and digital mirror functions are combined to provide a safe rear view even under difficult circumstances.

2. Built-in camera 2

High-resolution cameras in the front and rear provide outstanding daytime and nighttime image quality while enabling video and audio recording and storage. Large external memory card capabilities and Kia Connect connectivity offer access to diverse services such as event notifications and recording and storage of information such as GPS vehicle location that helps to stay on top of situations.

1. Fingerprint authentication system

Fingerprint authentication and Kia Connect make it possible to unlock the doors and start the engine without a physical key. Fingerprint authentication makes it easier to personalize user profiles, disengage Valet Mode, and use Kia CarPay.

2. Built-in camera 2

The high-resolution front and rear cameras produce superior video quality day and night, and offer a range of features including audio recording, a large external memory, OTA functionality, and driving information storage and playback (linked to the map). The Kia Connect app transmits impact detection video clips during parking and provides status information on the built-in cam.

3. Head-Up Display

A 10" high-definition head-up display shows key driving information using a visual theme that is consistent with the theme of the cluster and navigation.

Specifications may vary according to the trim, engine, and options that are selected.

Kia Digital Key 2

Without a smart key, users can lock and unlock door and start the engine with an iPhone, Apple Watch or Android smartphone, and this function can be shared with up to 15 devices.

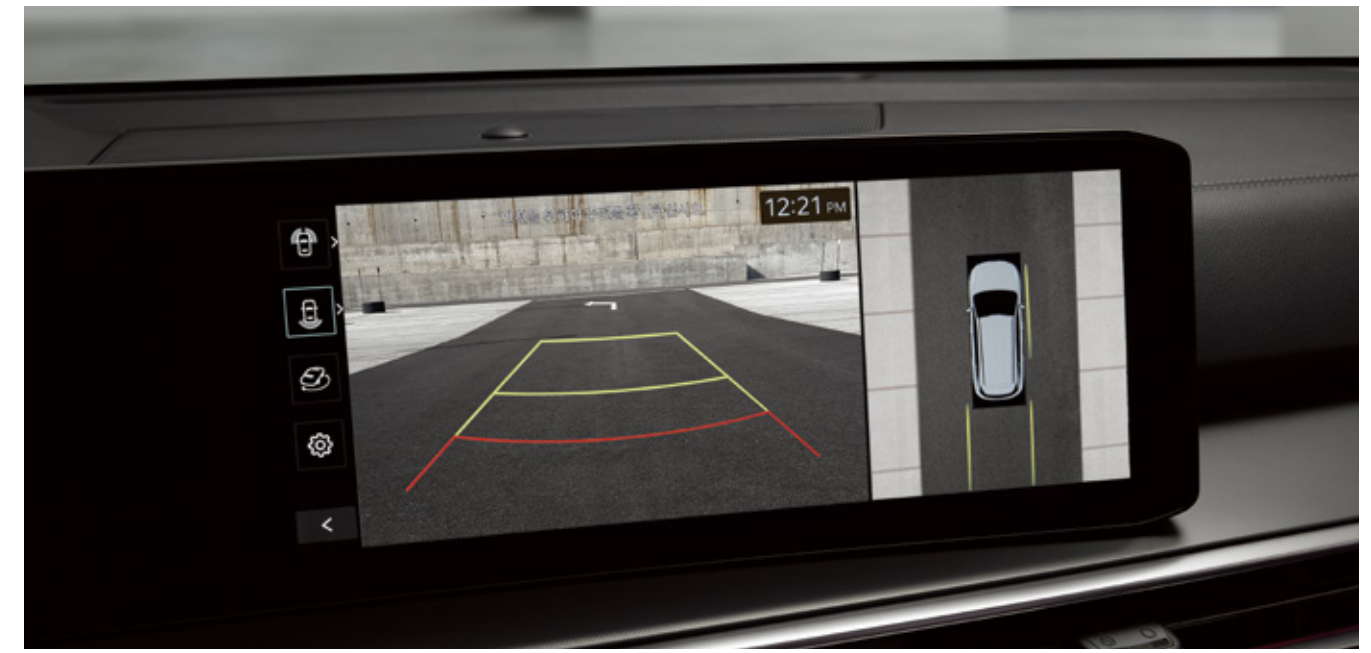

- ※ Refer to the official Kia Connect website for supported devices.
- ※ At present, the Apple Watch is the only supported smart watch model.

Over-the-air software updates

Vehicle software can be updated wirelessly whenever a new version becomes available. Users are prompted for authorization once the car is parked and the ignition is turned off after operating the vehicle.

- ※ Infotainment system screen images may change following an update.

Surround View Monitor

Displays the vehicle's surroundings in real-time to assist in safe parking.

After-Blow

Dries condensation in the air conditioning system after use. Prevents foul odors to maintain a pleasant cabin environment.

Specifications may vary according to the trim, engine, and options that are selected.

Power tilt & telescopic steering wheel*

This premium electronic feature adjusts the steering wheel position precisely and conveniently. It can also store the steering wheel position in the driver's smart position control system for added convenience.

Smart power tailgate (with Away Close function)*

Facilitates the loading of luggage by opening the tailgate automatically when standing behind the vehicle for a few seconds with the smart key. Auto Close shuts the tailgate automatically once one walks away with the smart key.

Terrain Mode (Auto, Snow, Mud, Sand)

Power, engine torque, and braking are controlled to fit the terrain that is being driven such as snow, mud, and sand for optimal driving performance. Auto Mode continuously tracks the road surface to help ensure a stable drive.

Supervision cluster (12.3" full-size color TFT LCD)

Boosts the pleasure of driving with animated effects that appear on the full-size color TFT LCD screen whenever the drive mode is changed. Promotes a safer driving environment by displaying diverse driving information with outstanding visibility.

*A virtual image has been used to help viewers' understanding. / Specifications may vary according to the trim, engine, and options that are selected.

10-airbag system*
 1st-row advanced, 1st-row side, 1st-row center side, 2nd-row side, and curtain airbags offer passengers greater protection in the event of an accident.

Safety

A broader range of safety technologies tailored to users who enjoy long-distance travel and multiple activities has been applied. Challenging parking and driving situations can be handled masterfully while a 10-airbag system ensures the safety of all passengers.

Reverse guide lamp
 Guiding lights are projected on the road surface in the back while moving in reverse to show pedestrians and vehicles crossing in the back the path of movement of the vehicle.

Multi-Collision Braking system*
 Automatic braking is activated to prevent secondary collisions when airbags are deployed due to a frontal or lateral collision.

*A virtual image has been used to help viewers' understanding. / Specifications may vary according to the trim, engine, and options that are selected.

Performance

Sorento's uniquely dynamic and smooth drive comes with outstanding fuel economy. Its silent ride and exceptionally stable handling will be a constant reminder of the vehicle's genuine value.

Navigation-based Smart Cruise Control

Helps to maintain a safe speed according to road conditions while driving on an expressway or highway. Automatically reduces speed before entering entrances/exits, safety zones, and curved sections of expressways and highways. Resumes acceleration to preset levels thereafter.

ADAS

Kia's advanced driver assistance systems use cutting-edge technology to protect drivers on regular roads as well as highways. They also help to mitigate diverse risks in parking situations.

Highway Driving Assist 2

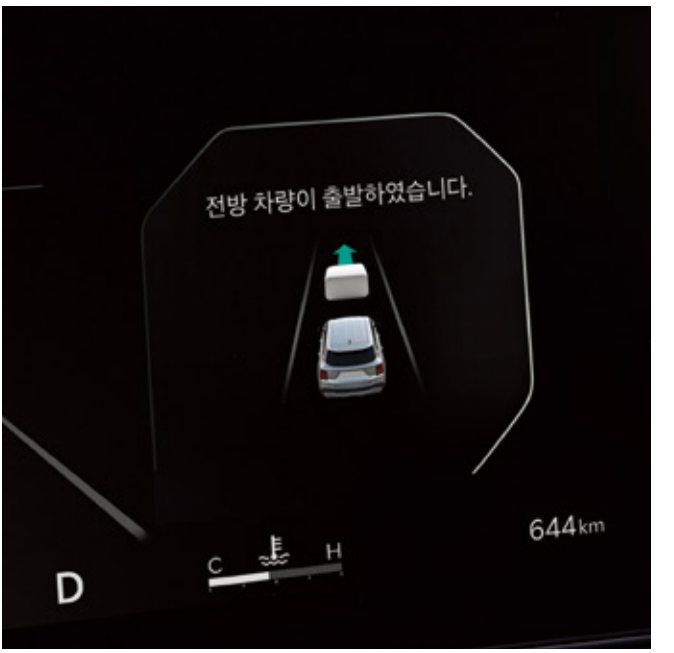

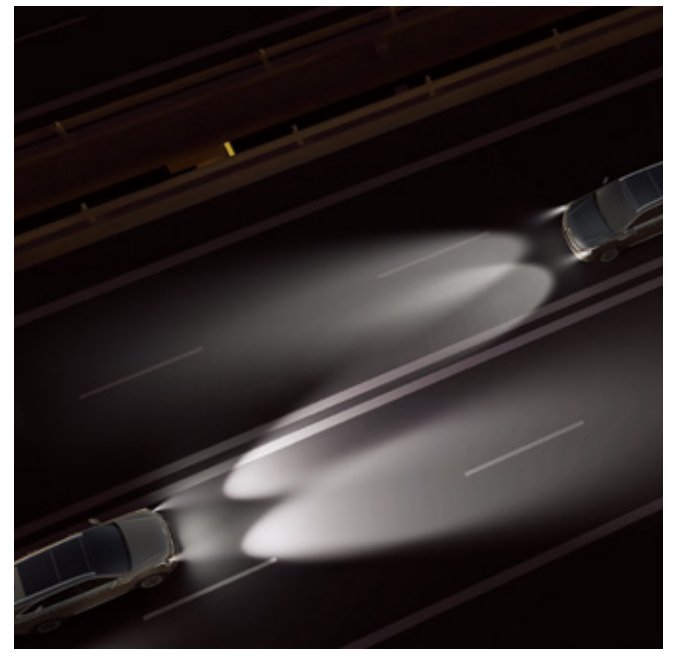

Helps to maintain a preset speed and a safe distance from vehicles in front while cruising on an expressway or highway. Helps to keep the center of the lane even on curved roads. Steers the car away from adjacent vehicles that come dangerously close without overrunning the lane. Automatically changes lanes if the driver is traveling above the minimum required speed and activates the turn signal while holding on to the steering wheel.

Reverse Parking Collision-avoidance Assist

Alerts the driver if there is a risk of colliding with a pedestrian or an object in the back while pulling out in reverse. Brakes the car automatically to prevent an accident if the risk of colliding increases even after sounding an alarm.

ADAS is only intended to assist the driver. Be attentive while driving at all times. / Functions may not operate smoothly due to environmental circumstances or driving conditions. Please refer to the user's manual for details. / Specifications may vary according to the trim, engine, and options that are selected.

Forward Collision-avoidance Assist

Monitors the surroundings while driving and alerts the driver if there is a danger of a collision. Helps to brake the car automatically if the vehicle in front stops abruptly or if the risk of colliding with a car, pedestrian, or cyclist in front continues to increase even after sounding an alarm.

Helps to brake the car automatically if there is a risk of colliding with a vehicle approaching from the left or right while crossing an intersection or with an oncoming vehicle in the opposite lane while making a left turn in an intersection with the turn signal activated.

Helps to steer the car automatically if there is a risk of colliding with a vehicle approaching from the opposite side or with a vehicle, pedestrian, or cyclist on the edge of the road.

In addition, it brakes the car automatically if there is a risk of colliding with an oncoming vehicle in the opposite lane or with a vehicle in the front or back in an adjacent lane while making a lane change.

Remote Smart Parking Assist

Allows the driver to move the car forward or backward from the outside using the remote control function on the smart key.

Blind-spot Collision-avoidance Assist (BCA)

Alerts the driver if there is a risk of colliding with a vehicle in the back in an adjacent lane when the turn signal is activated to make a lane change. Also helps to brake the car automatically if there is a risk of colliding with a vehicle approaching from the back in an adjacent lane when steering onto the road after parallel parking.

High Beam Assist

Tracks surrounding light sources, such as lamps from oncoming and preceding vehicles, and illumination levels to adjust the high beams automatically.

Driver Attention Warning

Alerts the driver when the attention level drops to "low" while driving. Alerts the driver when the vehicle in front starts to move after coming to a full stop.

Parking Collision-avoidance Assist - Forward/Side/Reverse

Alerts the driver about nearby objects while traveling at low speeds to help prevent accidents.

Lane Keeping Assist

Tracks lanes to help maintain the vehicle in the center of the lane.

Rear Cross-traffic Collision-avoidance Assist

Alerts the driver if a car is approaching from the left or right while pulling out in reverse. Helps to brake the car automatically if the risk of colliding increases even after sounding an alarm.

Safe Exit Assist

Sounds an alarm if a door is opened after coming to a full stop and there is a risk of colliding with a vehicle approaching from the back in an adjacent lane. Keeps the electronic child safety lock engaged to prevent the doors from opening if the driver unlocks the electronic child lock and there is a risk of colliding with a vehicle approaching from the back.

Line up

From hybrids to gasoline and diesel models, Sorento offers a broad lineup that perfectly matches today's tastes and lifestyles.

Volcanic Sand Brown (BN4)

Sorento Hybrid

235 System Max. power
ps (Gasoline engine : 180ps, Electric motor : 47.7kW)

Kia Connect

Kia Connect is Kia's connected car service for wireless navigation updates, smartphone-based remote vehicle control, and emergency alerts for a safer and more convenient vehicle usage experience.

Remote control

Users can remotely control various functions in the vehicle using smartphone apps.

Safety and security

Emergency assistance through the Kia Connect center in the event of an airbag deployment or roadside emergency (24/7, 365 days).

Maintenance

Vehicle maintenance services including diagnosis of breakdowns, driving information, and wireless updates.

Navigation

Optimal route guidance using real-time traffic information.

Streaming service

Use streaming services inside the vehicle without connecting a smartphone.

※ Complimentary 5-years of service upon initial enrollment with the purchase of a vehicle followed by 5 additional years of light service (SOS emergency dispatch, automatic notification of airbag deployment, monthly reports, traffic information).

※ A link to a streaming service subscription is required to use Kia Connect's streaming service ※ If your streaming service subscription only supports mobile devices, it will not be compatible with Kia Connect's streaming service.

※ For more information, visit Kia Connect's Kakao Talk customer service center (search "기아커넥트" through the Kakao Talk search window and befriend).

※ The features/range of Kia Connect remote control may vary depending on trims and options.

Snow White Pearl (SWP) / Specifications may vary according to the trim, engine, and options that are selected.
